

20 October 2016

Dear colleagues of Global Mapping Project participating organizations

At the 23rd meeting of ISCGM, Global Map Transfer Plan (*1) was resolved. According to the Transfer Plan we have prepared a web site to secure the availability of Global Map on the Web after the termination of the Global Mapping Project. Please visit <https://github.com/globalmaps/projectmanagement/blob/master/index.md> and see how Global Map data from your organization are made available. Please let us know if you find any issue on this.

As the final contribution from your organization to the Global Mapping Project, please do consider to send us the letter of agreement to the Transfer Plan. The Secretariat has prepared a template for the letter of agreement at:

<https://github.com/globalmaps/projectmanagement/blob/master/transfer-template.doc>

I really appreciate if you could send us the letter no later than 20 December 2016.

This letter is also available at:

<https://github.com/globalmaps/projectmanagement/blob/master/transfer-letter.pdf>
